BC Hydro Power Pioneers—your impact

How your support helps BC Children's Hospital

Through these times of great uncertainty, your unwavering support continues to fuel life-changing advancements in child health. Facing today's challenges—from childhood cancer to mental health, from chronic illnesses to mobility limitations—requires courage and determination. And, because of you, we have made major strides in transforming pediatric care. But there is no finish line when it comes to child health, and our work is far from over. At a time when donor support is more important than ever, we are so grateful to have you by our side.

CONQUERING CHILDHOOD DISEASES:

- **Research.** By pushing forward research, you will help experts understand why illnesses are hurting kids, so that something can be done about it.
- **Technology.** By funding the latest technologies, you will enable experts to innovate in what they use to deliver more-effective care.
- **Kid-focused care.** Your support will ensure kids are cared for by specialists and with programs that understand how they are different.

BRINGING NEW HOPE TO THE 20%:

- 140 children are diagnosed with cancer each year.
- 20% of kids with cancer do not survive – meaning one in five doesn't make it.
- 75% of kids who survive have long-term side effects from the treatments used on them.

ON THE CUSP OF A CURE:

- 2,500 kids and youth in BC are living with type 1 diabetes.
- By 2030, the number of kids with diabetes is expected to increase by 35%.
- 5,000 is the number of needles a kid with type 1 diabetes uses each year.

Helping kids across the province

Approximately 50,000 patients from outside of Vancouver Coastal Health Authority are treated at BC Children's every year.

- Over 96,000 kids visited the hospital for specialized pediatric services in 2019.

BC Hydro Power Pioneers Ed Turner Memorial Endowment for Medical Genetics

Our endowment provides guaranteed support for the pioneering work of researchers, training the next generation of health care professionals and ensuring the best possible care for kids today and for generations to come.

- As of March 31, 2020, the closing balance for the BC Hydro Power Pioneers Ed Turner Endowment for Medical Genetics was \$771,722, generating \$29,189 of interest income for genetic research.
- The Power Pioneers have set a goal to bring this endowment up to \$1,000,000 for BC's kids.

Thank you for supporting BC Children's Hospital
and the Power Pioneers Miracle Millions Campaign
